

Sharing God's Gifts

No gift is truly a gift unless it is given freely without reservation or condition. The gifts God has bestowed upon us are given unconditionally. Therefore we are called to model our giving after God's example. This unconditional giving shows our trust in the God who will provide for us which, in turn, will allow us to use these gifts to build the Kingdom of God.

Giving to our Parish

Sacrificial Giving begins with the recognition that everything we have has been given to us by God. When we make the commitment to return a proportion of our gifts, this is considered sacrificial giving. When we give out of our substance rather than our abundance, we acknowledge that we are committed and trust the Lord.
